Building project in Marseille

View from the Impact base.

Thank you for your prayers for this volunteer work camp from August 2 to 16, 2026. It's not too late to join us! Contact me if you're interested.

Perspectives church in St-Just

A short photo description of the church in St-Just that I got to visit in early June. First of all, we are grateful for the church's trust: they elected us very favorably at their last member's meeting on June 28. In this first photo, you can see the worship hall, with a seating capacity I estimate at between 50 and 80 people.

Here is a photo of the community café Fabricquai, located just above the worship hall. This café ensures a strong church presence in the neighborhood during the week. The young Germans we will welcome for the Impact program will be able to integrate well into neighborhood life and make connections through the help they provide.

Prayer points

- Subject for thanksgiving: we have found a place to live in Marseille. The flat has a lovely outdoor space and we will be right next to the Impact base.
- Pray for the administrative steps ahead — especially that we may quickly obtain a passport for Noah to make travel and paperwork between Germany and France easier.
- Pray for the volunteer work camp. A small team of 5 people has come together for the second week, from 9 to 15 August. That is encouraging. I will also be in Marseille during that time to help with the organisation and to meet our future landlord. Thank you for your prayers.
- Pray for the farewell service on 26 July at the Liebenzeller Gemeinschaft Schwenningen. Charlie is preparing the message and will present the Marseille mission project once more.
- Pray for our sending service at the evangelical chapel of Mulhouse on 9 August, in the presence of Christoph Hauser, Perspectives director for the Grand-Est region.
- Pray that our project would stir interest, callings, and financial support.
